

I really like being on the NJ Do Not Call List. I hope that this list will continue to protect citizens from unwanted sales calls. I know that companies insist that telemarketing is efficient, but consumers hate it. I make a real effort to protect myself and my family from the constant barrage of marketing messages out in the marketplace. We keep commercials out of our home by not having television or commercial radio. I feel that a company should not feel free to phone me in my private home to try sell me something.

We are bombarded with marketing messages every time we turn around! Let the home be a sanctuary from advertising and sales pressure if the residents so choose!

Thank you.
